

GROUP HOME DAILY DISINFECTING LOG

ALL HIGH-TOUCH SURFACES MUST BE DISINFECTED TWICE DAILY

If soiled, the surface must be cleaned first, then disinfected. High-touch surfaces include, but are not limited to, doorknobs, light switches, arms of chairs, tables, backs of kitchen chairs, phones, tablets, touch screens, remote controls, keyboards, handles, desks, toilets, sinks, faucets, door frames, etc. Watch for unique areas in your location that are touched regularly like the top of a half-wall or the corner of a wall by the hallway that should also be disinfected. Sign below once you have completed the disinfecting.
